

COVID-19 VIRUS INFORMATION

Gunnersbury Park – Small Group Sessions

Brentford FC Community Sports Trust are taking practical measures to ensure participant and staff safety to help reduce the spread of the Covid-19 virus (Coronavirus).

Please read the information carefully and contact Luke Brooks-Smith (lbsmith@brentfordfcst.com), if you require any further clarification. We believe the steps below are crucial to providing your child(ren) with a safe environment and anyone who does not adhere to our steps below will not be able to train with us during this time.

- For information on the current situation for coronavirus please visit the [WWW.GOV.UK](https://www.gov.uk) website.
- Under no circumstances should your son/daughter attend a session if they are feeling unwell, been in contact with someone who has Coronavirus or showing symptoms (persistent cough, difficulty breathing, a fever or a loss of smell/taste). Please do not put our coaches and other families at risk by taking chances.
- If your son/daughter are feeling unwell during a session, please tell them to immediately inform their coach.
- To reduce the spread of germs when your son/daughter cough or sneeze, please encourage them to cover their mouth and nose with a tissue, or their sleeve (not their hands) if they don't have a tissue and throw the tissue away immediately. They will then need to use their anti-bac hand gel before returning to the session.
- BFC CST will be adopting a no-contact policy, which includes all common forms of greeting that contain physical contact such as high fives, fist bumping etc. – please inform your son/daughter not to shake hands or high five with other participants or with their coaches.
- BFC CST Coaches will design sessions that adhere to social distancing and FA guidelines which include; remaining a minimum of 2m away from other participants and coaches, no physical contact during the session, that group sizes do not exceed 1 coach and 5 players and that groups do not mix.
- Your son/daughter must bring their own anti-bacterial hand gel and water bottle, which is clearly labelled, to every session.
- No parents will be able to enter the AGP facility. BFC CST coaches will greet your son/daughter at the entrance gate and will be shown to their playing area. Parents can watch from the outside of the fencing, wait in their cars or go for a walk in the park.
- If your son/daughter are injured during the session their coach will accompany them to our designated first aid area. If it is a minor injury the coach will try to assist your son/daughter in self administering first aid. If the injury is more serious the BFC CST coach will put on gloves and a face mask and will ask your son/daughter to do the same before carrying out the treatment. If it is a severe injury the coach will call 999 for an ambulance and contact the parent/guardian listed on our register.
